

HARI PRASATH

CYBER SECURITY ANALYST (ENTRY-LEVEL)

<https://www.linkedin.com/in/hari-prasath-b22075326/>

+91 6369113681 | hariprasathv08@gmail.com | Coimbatore, India

SUMMARY

Curious and motivated individual building a career in cybersecurity, with hands-on exposure to networking, Linux, security monitoring, and incident response through labs and practical learning. Actively developing skills in analyzing security events, understanding threats, and protecting systems. Seeking an entry-level Cyber Security Analyst role to learn from real-world environments, gain industry experience, and contribute to security operations.

TECHNICAL SKILLS

- Network Security
- TCP/IP & OSI Model
- Firewall Configuration (UFW)
- Security Monitoring & Log Analysis
- Nmap (Port Scanning)
- Wireshark (Packet Analysis)
- Linux Command Line
- Bash Scripting

PROJECTS & LAB EXPERIENCE

SECURE-FW – Linux Firewall Automation Tool (Bash Script)

Jan 2026 - Present

- Developed a Linux firewall automation tool using Bash scripting and UFW for defensive security learning
- Implemented firewall management features to enable and disable firewall rules
- Configured allow and deny rules for network ports to control inbound traffic
- Restricted access to websites by modifying the /etc/hosts file
- Implemented basic SSH brute-force detection by analyzing authentication logs
- Automatically blocked suspicious IP addresses based on repeated failed login attempts
- Strengthened understanding of Linux security, firewall rules, access control, and log-based monitoring

EDUCATION

Rathinam College of Arts & Science, Coimbatore

07/2024 – Present

Bachelor of Science (B.Sc.) – Computer Science with Cyber Security
